

On behalf of the Parish Council:

You may be aware that Planning R20/1062 - Land Top of Millers Lane / Fosse Way was recommended for approval, subject to conditions on 11th June by Rugby Borough Council. Your Parish Council strongly objects to this development and met with RBC to discuss. In our opinion it is an illegal development in a greenbelt area and is against national planning policy. A planning meeting was held at the Town Hall on the 23rd of June re this planning application and our Chairman, Bill Woolliscroft, together with your local RBC Councillor, Tony Gillias, stated our objections and arguments. As a result the application has now been refused, against the advice of the planning officers. We expect an appeal to be lodged, but be assured, we shall continue to object and argue our case.
